Estimated Shipping — UPS Ground from Philadelphia, PA

Zone	Region (approx.)	Distance	Flat Rate (Customer)
East	PA, NY, NJ, New England, DE, MD, VA, OH	0–500 mi	~\$68
Midwest / South	IL, MO, TX, GA, FL, TN, and similar	500–1,500 mi	~\$103
West	CA, OR, WA, and other far zones	1,500+ mi	~\$143

Flat rate = estimated UPS Ground cost (Philadelphia origin, ~47 lb package, per published 2026 rate structures) + \$7.50 handling (half of a \$15 local drop-off cost) + \$10 flat margin, rounded. These figures are planning estimates, not a live quote from a UPS account; the same formula applies once real account rates are confirmed — verify against [ups.com](https://www.ups.com) or your UPS account and update accordingly.

Fulfillment Checklist — Internal Use

- ☐ Confirm shipment is not placarded (non-hazardous certification on file)
- ☐ File UPS non-hazardous shipment certification form
- ☐ Include current MSDS with the physical shipment
- ☐ Confirm destination zone (East / Midwest-South / West) and quote correct flat rate
- ☐ Weigh/measure actual package before generating label (confirm ~47 lb, dims match)
